

IMPORTANT ANNOUNCEMENT FOR ILLINOIS SYMETRIA PATIENTS
November 11, 2024

Symetria Recovery has updated our take-home schedules for Illinois patients, in accordance with recent Federal rule changes. As always, each individual's take home schedule will be determined on an individual basis, taking into account guidelines like:

- Absence of active substance use disorders, other physical or behavioral health conditions that increase the risk of patient harm as it relates to the potential for overdose, or the ability to function safely
- Regularity of attendance for supervised medication administration
- Absence of serious behavioral problems that endanger the patient, the public or others
- Absence of known recent diversion activity
- Ability to safely transport and store medication at home
- Other criteria that the medical director or medical practitioner considers relevant to the patient's safety and the public's health.

Please talk to your treatment team to discuss your individualized plan.
